## INCREASED PROTECTION

Our Email Security adds an increased layer of protection against spam and virus threats, ensuring that over 99% of spam is identified and removed before it reaches your Hosted Exchange mailbox.

Not only this but any spam is quarantined for 14 days, meaning that you can inspect and resend any messages that you wish to receive.

## FIRST-CLASS EMAIL SECURITY

Use Email Security to better protect your Hosted Exchange

Email Security archives all inbound, outbound and internal email for up to 10 years independent from Exchange, giving you even more peace of mind that your emails are secure.

Your emails are indexed, compressed and securely archived in real time at twin geographical independent datacenters. You are also able to view and retrieve each email independently or group thousands by date, providing you with the tools to recover archived emails quickly and easily back into your Hosted Exchange mailbox.
